networking for social
care research

40th Anniversary
1972-2012

Preventive Strategies and Practices across Social Care and Health: Policy, People and Possibilities

Monday 28th October 2013
CoSLA Conference Centre, Edinburgh

The aim of the day is to engage key policy makers, practitioners, researchers and other stakeholders in a workshop to consider why prevention matters and to answer the essential and complex questions about how to make it work, such as:

- What does prevention mean to different people?
- What are different groups or service areas doing?
- How is it impacting on policy nationally and locally?
- What is the impact of eligibility criteria on preventive services?
- How do we know when it's working?

The room will be laid out cafe style with a facilitator at each table of 6 participants to stimulate discussion and provide feedback.

Attendance at this event can be used as evidence of continuing professional development and 'certificates of attendance' will be provided (on request) for your CPD portfolio

An emailable xls version of the booking form is available on the SSRG website www.ssrp.org.uk

Social Services Research Group

The network for research, information, planning and performance across social care and health services for children and adults
