

# Key Registration Statistics June 2024

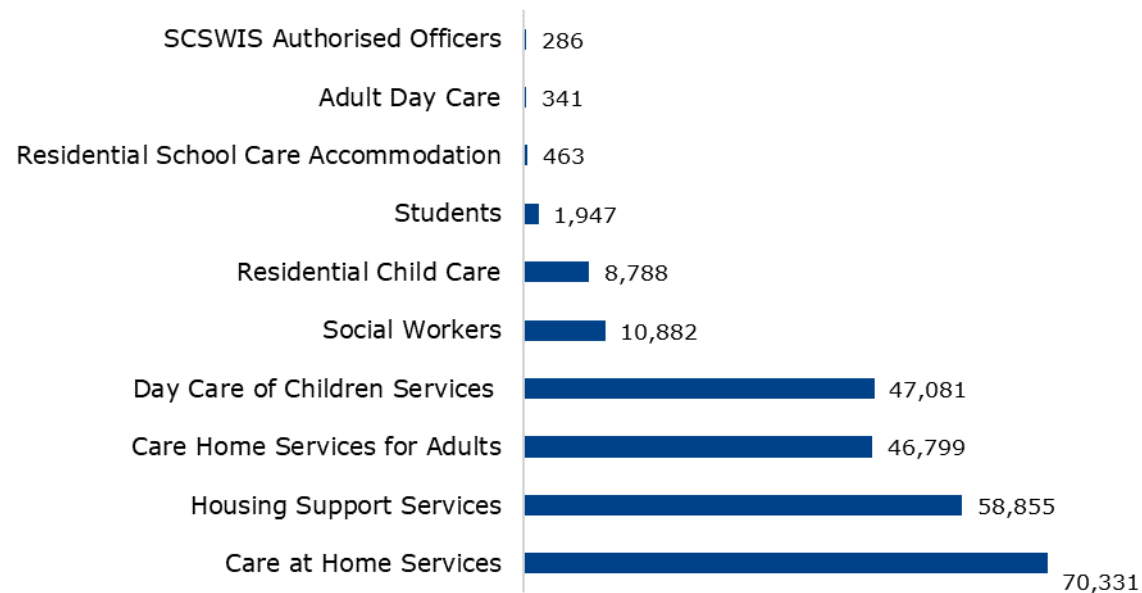

## 1. How many people are on the register?

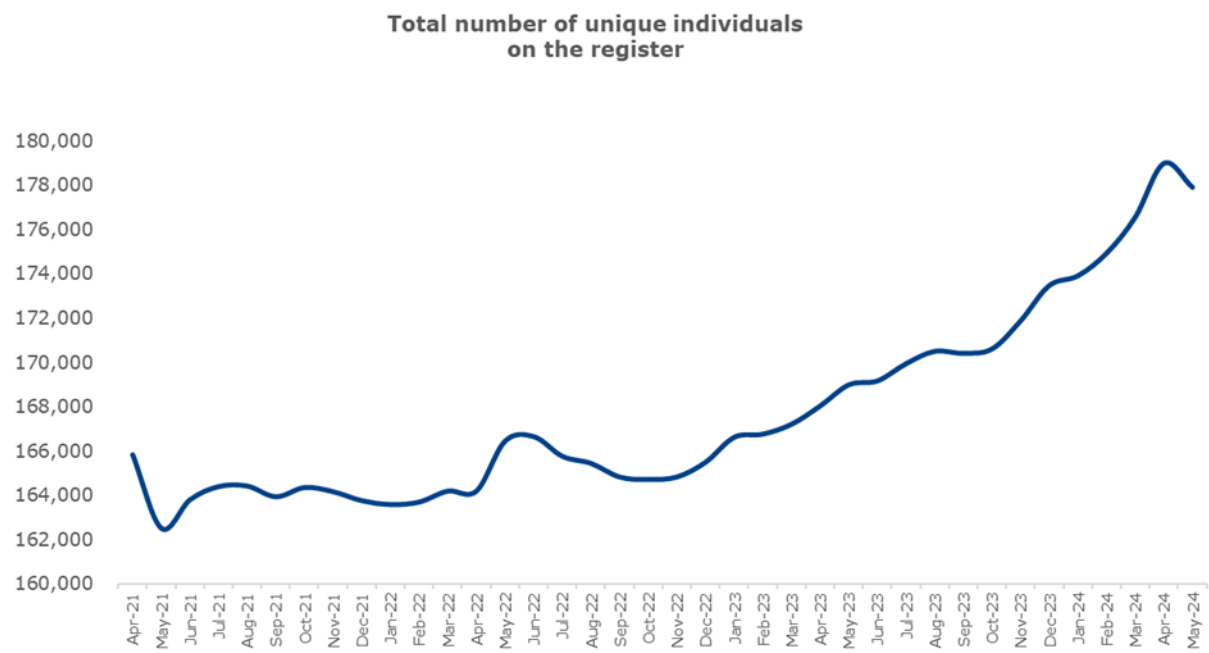

As of 3 June 2024, there were 177,910 unique individuals on the register.

Some people need to register on more than one part of the Register; this brings the total number of registrations to 245,773.

### Number of individuals on each register part

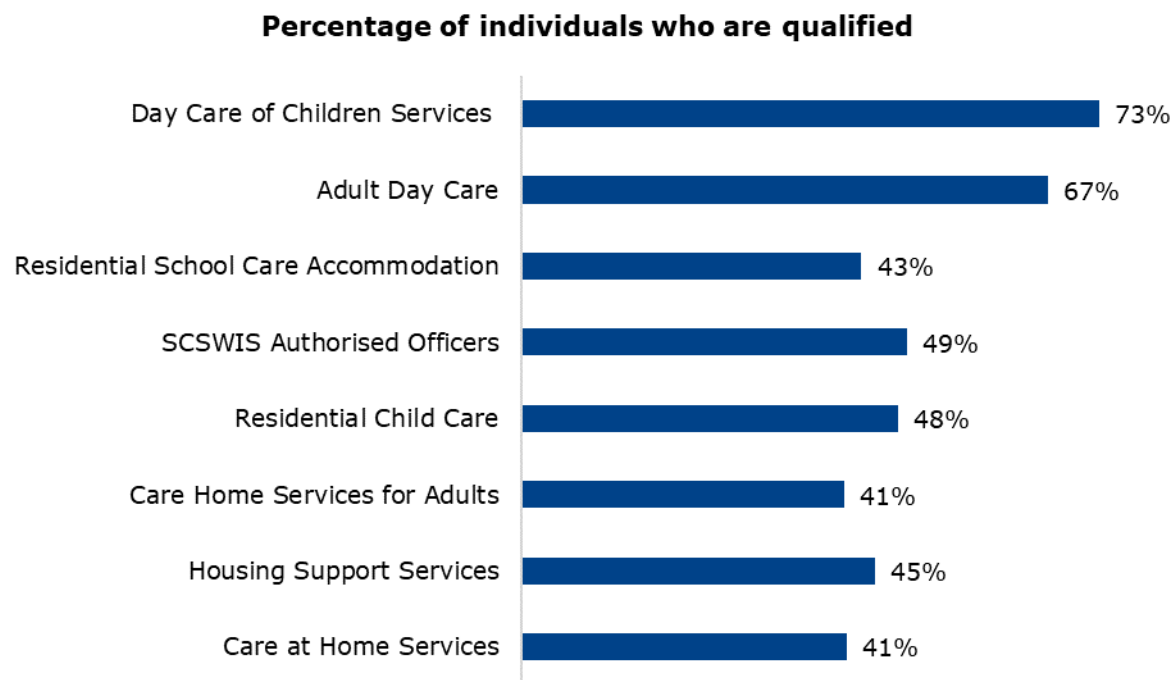

This chart shows how the number of unique individuals has changed. Between April 2020 and March 2021, in response to the pandemic, we did not remove people from the register for non-payment of fees. In April 2021, we removed people who had not paid their fees because they were no longer working in the sector. This explains the fluctuation over this period.

## 2. How many people on the register have the relevant qualifications?

126,914 (51.58%) of registrations have the relevant qualifications.

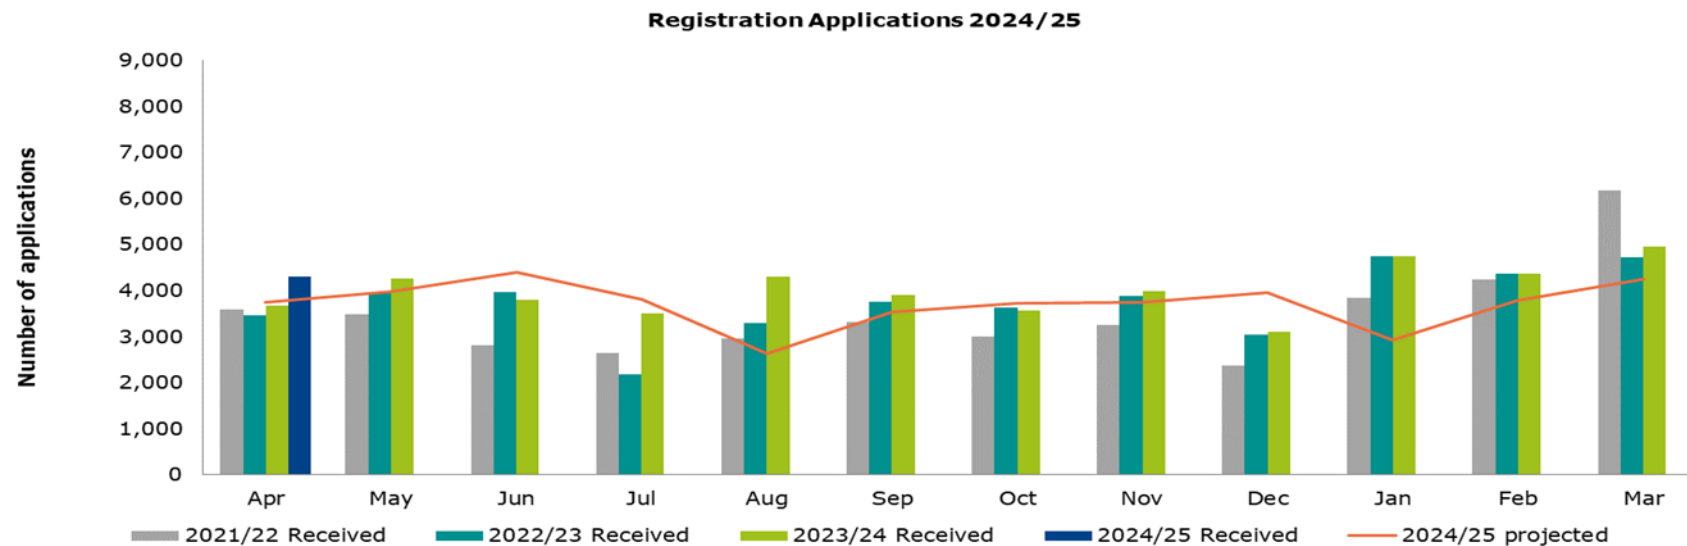

People who are on more than one part of the register need to do the qualification for each part (although some parts have the same qualification requirement, e.g., Housing Support Services and Care at Home Services).

### 3. How many applications are we receiving?

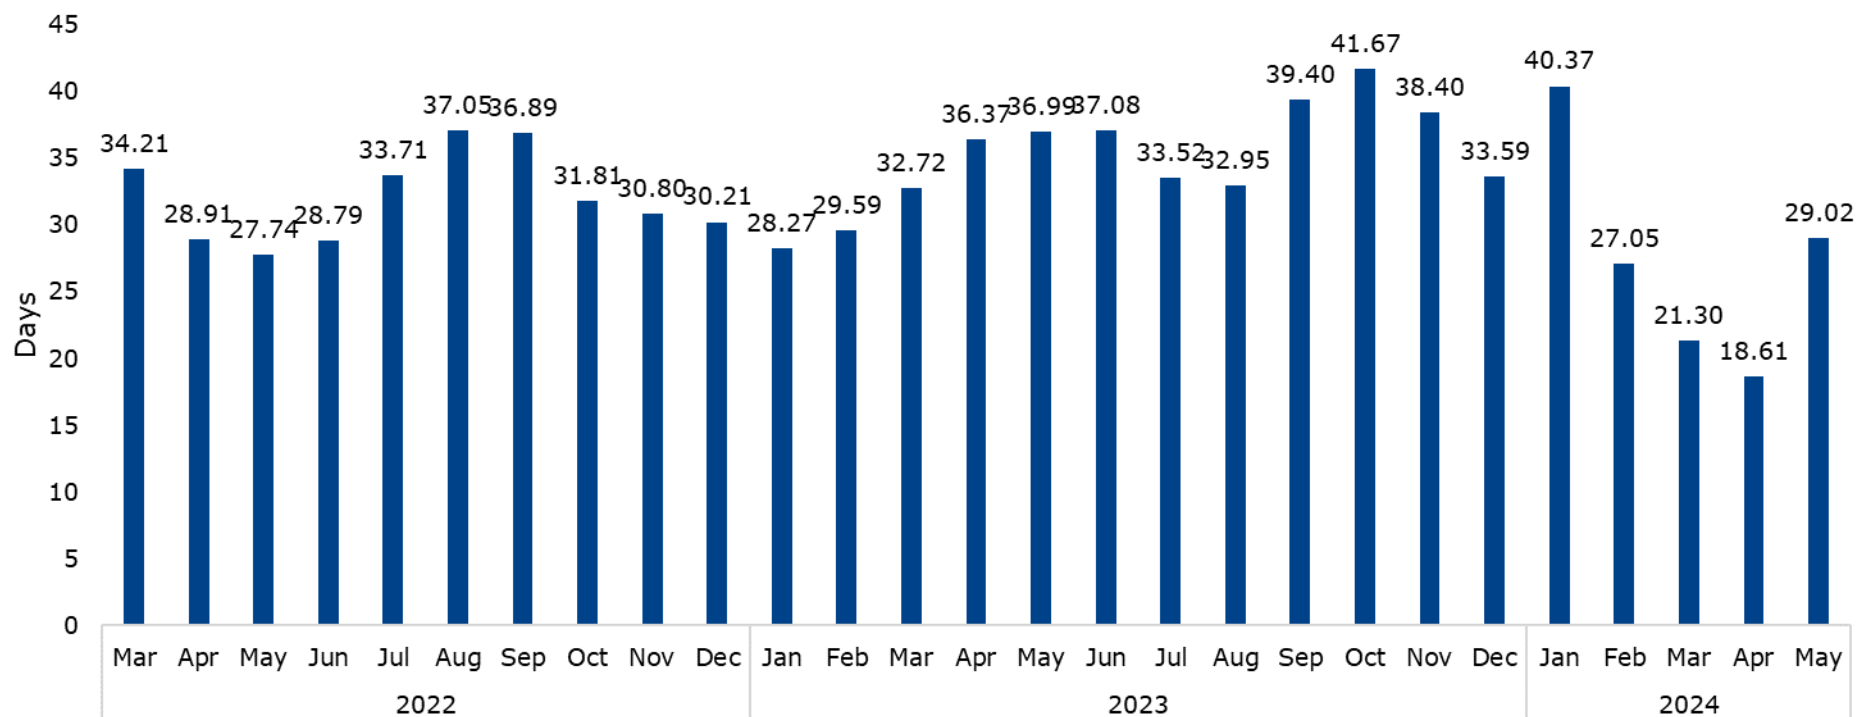

We projected that we would receive applications from 44,496 individuals in the 2024/25 financial year.

By the end of May, we were projected to receive applications from 7,709 individuals, however we have actually received applications from 4,302 individuals.

#### 4. How long do we take to register an application from date of receipt?

Average time to process an application from date of receipt
